

NON STORAGE UNIT

Aquatherm Steam/Water non-storage calorifiers are designed in accordance with BS.853.90

They are available in 16 standard sizes. The standard construction is of carbon steel.

The tubes are made of drawn copper. Other materials are available on request. Horizontal or vertical mounting.

SIZING

Simply draw a vertical line from your available steam pressure (after the control valve) and a horizontal line from the required output.

The two lines will intersect below the performance line for the correct calorifier. The larger calorifier must always be selected.

TECHNICAL

Our technical sales office will be pleased to discuss your requirements.

Contact our office if your requirement is not included in our standard range.

We can arrange for the following:

- 1 Secondary temperatures other than 82°C /71°C.
- 2 Super heated steam
- 3 Duty exceeds 3,000Kw.
- 4 Non standard materials are required i.e. stainless steel.
- 5 Restricted plant room space.
- 6 Made to measure replacement
